

# Omkar Desai

Mumbai, India

+91 932-691-3582 | [omkar.desai916@gmail.com](mailto:omkar.desai916@gmail.com) | <https://omkardesai.me/>

## EXPERIENCE

---

### **Kalvi Educations | Technical Content Engineer Internship: August - current**

- Produced web development content such as Angular, React, Javascript, etc.
- Developed projects and assignments for students taking the course.
- A thorough study of all the competitive courses to improve the companies course.

### **Trivium Education Pvt Ltd: Web Development Tutor: April to May 2022**

- Teaching and solving web development problems students from all over the world (mainly US and UK).
- Worked (taught and solved) in technologies such as Node.js, React.js, MongoDB, MySQL, Javascript, etc.

## PROJECTS

---

### **Github Finder ( ReactJS, Github API, Bootstrap, Axios )**

- Live Project - <https://github-finder-react-omkar.netlify.app/>
- With just a username, you can find information and all repositories of any Github user.
- To obtain user and repository information, we are using Github's REST API
- This is kind of like a Github clone

### **Sudoku Solver (Python, Backtracking Algorithm)**

- Github link - <https://github.com/Omkar-Desai01/Sudoku-Solver>
- Instead of using the 9 pow 81 solution that takes forever, I used backtracking to solve it.

### **Markdown Maker (React.js, React MDM )**

- Live Project - <https://markdown-maker.netlify.app/>
- This website lets you create markdowns for GitHub and preview them
- Using the browser API, all Notes and Markdowns are stored in the local storage.

## EDUCATION

---

### **Nirmala Memorial Foundation - Kandivali.**

Bachelor of Science in Information Technology,
